

Manash Gupta — Full Stack Developer — GenAI Developer

Gurgaon, India — +919039784916 — manash.9039@gmail.com — LinkedIn — Portfolio

EXPERIENCE

• GoPropify Pvt. Ltd.

Full Stack Developer I (Full-time)

Hybrid-Gurugram

Jun 2025 – Present

- Spearheaded end-to-end development of core platform features across frontend and backend, owning UI, API, and database architecture using React.js, Next.js, Node.js and Express
- Delivered **2 production-ready products in 6 months** leveraging AI-assisted development, accelerating engineering velocity by **3x**
- Refactored UI architecture and revamped the platform using modern React patterns, improving development speed by **20%** and performance by **30%**
- Designed and developed role-based dashboards and implemented JWT-based authentication with RBAC, enhancing productivity by **25%** and strengthening access security
- Integrated third-party services including payments and analytics, enabling seamless transaction tracking and data-driven insights
- Built scalable booking, scheduling, and payment systems handling **100k+ records**, reducing manual effort by **50%** and improving database performance by **40%**
- Architected and launched applications from scratch, establishing scalable system design, coding standards, and deployment workflows

• Techno Exponent

Sr. Associate Software Engineer (Full-time)

Remote-Kolkata

Feb 2025 – May 2025

- Led frontend development using React and TypeScript for enterprise systems
- Integrated third-party services including payments and analytics, improving transaction success rate by **20%**
- Built complex dynamic forms with validation workflows
- Conducted code reviews and improved code quality
- Migrated system to Next.js App Router; improved SEO by **40%** and reduced build time by **30%**

• Techment Technology

Software Engineer (Full-time)

Remote-Bhilai

Jan 2023 – Aug 2024

- Delivered complete product lifecycle from design to deployment
- Implemented authentication using Clerk, enabling secure login via password and OAuth providers (Google, Microsoft).
- Built scalable backend systems and improved integrations
- Conducted training on T3 stack and microservices architecture
- Developed backend APIs; improved response time by **30%** and deployed scalable systems on AWS

SKILLS SUMMARY

- | | |
|--------------------|---|
| • Languages | JavaScript (ES6+), TypeScript, Python |
| • Frameworks | React.js, Next.js, Node.js, Express.js, FastAPI |
| • Databases | PostgreSQL, MySQL, MongoDB |
| • Tools & Infra | Docker, Redis, Prisma, Jenkins |
| • Core Engineering | System Design, API Design, Performance Optimization |
| • AI & LLM | OpenAI, Cursor AI |

CERTIFICATIONS

• AI Engineering Core Track — Ed Donner

- Covered LLM Engineering, Retrieval-Augmented Generation (RAG), QLoRA, and Agent-based architectures

• Namaste Node.js — Akshay Saini

- Strengthened backend fundamentals including event loop, async patterns, and system design principles

EDUCATION

Bhilai Institute of Technology, Durg

Master of Computer Applications (MCA)

Durg, India

2020 – 2022

Raigarh City College

Bachelor of Computer Applications (BCA)

Raigarh, India

2016 – 2019
